

A minimum format poster template will be provided. The best 3 posters as decided on by the graders will receive 20 extra credit points each. Your poster is due via the TEACH interface on **Monday @ 5pm of Week 27** and must be posted to BeaverSource and should be linked to Section 9 Expo Materials. Posters must be in either MS PowerPoint or Adobe PDF format. The School of EECS will pay for the cost of printing posters that are submitted on time.

	<p>Overall Appearance</p> <p>0 - Cluttered or sloppy appearance.</p> <p>10 - Pleasant to look at. Pleasing use of colors, text, and graphics</p> <p>20 - Very pleasing to look at. Particularly nice colors and graphics.</p>
	<p>Text / Graphics Balance</p> <p>0 - Too much text. The poster gives an overwhelming impression of text only. OR Not enough text. Cannot understand what the graphics are supposed to relate.</p> <p>20 - Balanced. Text and graphics are evenly dispersed in the poster; enough text to explain the graphics.</p>
	<p>Text Size</p> <p>0 – All text too small to view comfortably from a distance of 1-1.5 meters.</p> <p>10– All text Easy to read from 1-1.5 meters</p> <p>20 – All text very easy to read.</p>
	<p>Organization and Flow</p> <p>0 - Cannot figure out how to move through poster</p> <p>10 - Implicit. Headings (Introduction, Methods, etc.) or other device implies organization and Flow</p> <p>20 - Explicit numbering, column bars, row bars, arrows, etc. Graphics and diagrams used add to brochure and are not random</p>
	<p>Author Identification</p> <p>0 - None.</p> <p>5 - Partial. Not enough information to contact every author without further research.</p> <p>10 - Complete. Enough information to contact every author by e-mail without further research. All group members identified by picture. Webpage for project listed</p>
	<p>Engineering Requirements</p> <p>0 - Can't find.</p> <p>5 - Present, but not explicit. Buried at end of "Introduction", "Background", etc.</p> <p>15 - Explicit. This includes headings of "Engineering Requirements" and "Desired Features." Format allows for quick scanning of the requirements.</p>
	<p>Requirements Met</p> <p>0 - Can't find.</p> <p>5 - Present, but not obvious. May be imbedded in monolithic blocks of text.</p> <p>15 - Explicitly labeled and arranged to quickly scan what minimum requirements and desired features have been met</p>
	<p>Public Friendly Overview</p> <p>0 - Absent</p> <p>10 - "Summary" or "Introduction" section present, but not public friendly.</p> <p>20 - "Summary" or "Introduction" section present and is public friendly.</p>
